mod without any tools! - Part I **MODS FOR YOU.** C&C: RA2YR has lots of mods, mainly for Yuri's Revenge and Red Alert 2. If you can get these mods you will also need the original RTS and the Yuri's Revenge C&C1 mod if you want the C&C2 version. This mod is the Yuri's Revenge mod and I made it with that in mind. However I have plans to do a Yuri's Revenge mod for Red Alert 2 also. I don't ask any money for this mod. You can download the mods at the links below. I have tested these mods on the game before giving them to you so they should work fine on the game. You can download the Yuri's Revenge files from: The Warring States mod I made can be found from: ***** Mod Configuration == 0. For support, feedback and technical help contact me at 1. This mod was not made to be loaded on Tiberian Sun, because this game has some bugs. 2. This mod is heavily inspired by the Tiberian Sun patch from the Mod Squad. 3. If you have any comments or suggestions, feel free to contact me. 4. This mod was made for Yuri's Revenge and has not been tested in Red Alert 2 or Warring States. 5. This mod may work in Red Alert 2. 6. If you have the original Yuri's Revenge mod installed, it will conflict with this one. 7. If you have the original RTS installed and the Yuri's Revenge C&C1 mod installed, it will conflict with this one. 8. The mod appears at the end of the Yuri's Revenge game screen. 9. You have to load the mod in your Yuri's Revenge C&C2 mod before you can load Yuri's Revenge. 82157476af
