### About This Game

Finally - a light-weight forestry simulation that doesn't need hours of tutorials to learn the basics. Easy to learn, hard to master is the key. Jump into your sophisticated machinery, get work done and enjoy the career mode – this is all about skills and dexterity. A beautiful world awaits you when you turn trees into logs and transport them across the map. But beware – your machines can break down, and you will have to take care of the replacements.

### Features

- Different forestry machines and their functions accurately simulated
- Varying tasks and missions to accomplish
- Career mode includes replacement of broken machinery

If you played MH4VMH4UMHGenVMHGU or just think the Handler looks ugly as hell, buying this will help you and the developers. Don't forget to download this mod if you happen to pick it up:

[i would say 4.5 / 5. Two thumbs up... because I only have two thumbs](#)

[Awesome just to listen to the music from this game! Very peaceful & relaxing.. this game it has nobody online. play governor of poker.. This game is highly enjoyable so far. If you enjoy games like Myst, this will be up your alley. You'll need to get analogue for some of the puzzles, so fetch a pen and paper, and pay attention to your surroundings for hidden clues. The atmosphere really sets the mood and setting is beautiful.. The developer in the store page says it has trading cards, but don't have any. I want my 10 cents back :c. If you like the Crooked Man, you'll definitely love this one too. Has a great storyline, a few good scares, original puzzles, and a huuuuge map. 9/10, absolutely worth paying for.. Pro: A fairly long and good story. Great variety in puzzles.](#)

[Con: I mis spoken dialog. When using "Hint" some sparkels showed up at wrong places.. This game is plagued with bugs and gliches that results in crashes every so often. Apart from that, the concept of the game is awesome. I love how the devs combined RTS with arcade style battles.](#)

[Would definitely give it a positive rating if not for the crashes that made this game unplayable.. Good game BUT when ever I play it it will not let me out of level 1 after the boss is dead if it lets me get that far, the developers need to fix this game to make it better.](#)

Randy can go right ahead and make this one an Epic store exclusive.. A real gem of a game. The whole atmosphere is mesmerising, everything looks so vibrant and alive. The animations are awesome and the character art is great. The soundtrack is an absolute banger, and without a doubt probably one of my personal favourites. It really captures that neon cyberpunk aesthetic perfectly. And the combat? The most crucial element? It knocked it right out of the \u2665\u2665\u2665\u2665ing park. The ball is on the moon now. It's razor sharp and makes you feel like a badass. My only criticism would be that the random nature of the enemies' spawns will cause some \u2665\u2665\u2665\u2665t combo drops and deaths, but the game can become so brutally difficult and frantic that you won't even know if what killed you was fair or not.

All in all, a real indie gem. Even at full price, it's a steal and can keep you busy with it's high replayability and cocaine-level addiction for hundreds of attempts.

9.5/10. Endless is so addictive ! Thank you !. Bad FPS, bad flight controls. It could have been a nice game but it needed more work.. I really like it! It's very fun in splitscreen with friends, but also in single player!. Great game. Amazing graphics, amazing story, innovative gameplay, unlike anything I've ever seen. 10/10 would play again.
